

Occasion:
Posing for Official
White House Portrait

Trendsetter: Omar Roth, stylist and owner of SALON O in Greenwich, CT, who has worked with former First Lady **Nancy Reagan**, as well as with Westchester Congresswoman **Nita Lowey**: "I would keep Hillary's hair-style short because it suits her; however, changing to a cut with sharper and stronger angles will be much more flattering. I would like to take her color from the more conservative "First Lady blonde" to a richer color that will enhance her features. A true copper, with strategically placed honey-amber highlights, would definitely be my choice of color. It takes a strong, confident woman to carry red hair, and softening it with highlights will keep her image strong yet approachable."
